

CASA of DuPage County, Inc.

BACKGROUND AUTHORIZATION CHECK

The primary concern of the Juvenile Court is the safety and well-being of children brought before the court because of neglect, abuse and/or dependency. To fulfill this role, the court must screen both staff and volunteers closely, not only checking personal references but completing a policy agency computer search and, in some cases, asking for materials from other state and local agencies. We reserve the right to deny admittance to the volunteer program at any time we believe a person may not uphold the highest standards of honesty, integrity, and performance. Your signature below indicates your understanding of this concept and your agreement to our completing a thorough background check.

I authorize the DuPage County CASA Program to request written verification as to my character and how it would relate to the CASA program. CASA is authorized to contact law enforcement authorities in order to verify that I have no police record. I also authorize CASA to obtain from the Department of Children and Family Services a Background Check for possible abuse or neglect charges or findings against me.
